ABOUT ME

Experienced Software Engineer with over 4 years in web development, specializing in Front-End technologies including HTML5, CSS3, JavaScript (ES6+), React.js, and Next.js. Skilled in building responsive, scalable, and SEO-friendly applications with a focus on UI/UX best practices and performance optimization. Hands-on experience with TypeScript, Redux, RESTful APIs, Git/GitHub, and Agile methodologies. Holds a Bachelor's degree in Software Engineering from Damascus University.

WORK EXPERIENCE

Majarat Albanfsaj – Riyadh, Saudi Arabia

City: Riyadh | **Country:** Saudi Arabia

Senior Front-End Developer

[01/01/2025 – Current]

- Built responsive dashboards and websites using React.js, Next.js, Tailwind CSS, TypeScript, and Laravel Blade.
- Integrated RESTful APIs and GraphQL, React Query for efficient state management, caching, and data fetching.
- Converted Figma wireframes into pixel-perfect UI/UX interfaces.
- Optimized Core Web Vitals and page load performance.
- Deployed applications via CI/CD pipelines with GitHub Actions.
- Translated business requirements and Figma UI/UX designs into scalable, reusable front-end components.

Ugrait Tech – Damascus , Free Zone, Syria

City: Damascus , Free Zone | **Country:** Syria

Fornt-End Developer

[01/06/2023 – 01/01/2025]

- Developed and maintained frontend modules with React.js, Redux Toolkit, and JavaScript (ES6+) , Bootstrap .
- Implemented Material-UI components for consistent and accessible design systems.
- Enhanced SEO and ensured WCAG-compliant accessibility across platforms.
- Conducted unit and end-to-end tests with Jest and Cypress to ensure code reliability.
- Worked in an Agile Scrum environment, collaborating with cross-functional teams for timely delivery.

Nurvu Boost Technologies – Dubai, United Arab Emirates

City: Dubai | **Country:** United Arab Emirates

Front-End Developer

[01/06/2022 – 01/06/2023]
